News 7 new results for Hydraulic Fracturing

Wyoming Water Tests in Line With EPA Finding on Fracking
 Businessweek
 The latest test results on water near Pavillion, Wyoming, show pollutants "consistent" with findings used last year to link tainted water there to hydraulic fracturing, the U.S. Environmental Protection Agency said. The EPA yesterday issued its follow ...

EPA: Pavillion, Wyo., Natural-Gas Site Tests 'Consistent' With Earlier Data
 Fox Business
 Hydraulic fracturing involves a high-pressure mix of water, sand and chemicals injected underground to break open seams in the earth and unlock natural-gas supplies. So-called fracking paved the way for a boom of U.S. natural-gas production, but ...

[Guest Post: Waterless Fracking?](#)
[Scientific American \(blog\)](#)
 With all the negative attention surrounding hydraulic fracturing, a process that stimulates shale plays but

requires the use of millions of gallons of water, it is no surprise that companies are looking at alternatives. One such alternative that has ...

County considers purchase of small natural gas vehicles

Winona Post

Frac sand has been the talk of the town for months in the Winona area. Frac sand is a crush-resistant, round type of sand found in abundance here and used for hydraulic fracturing processes in other states. The sand is used to hold open cracks in shale ...

Can Flow Industries Make Oil Fracking Greener?

Green Prophet

Can green and fracking ever be used in the same sentence? Hydraulic fracturing – fracking — is one way to extract valuable shale oil and gases from deep underground by injecting a highly pressurized fluid into rock to pull out the fossil fuel. Those ...

Linde launches nitrogen portable storage vessels to increase efficiency and ...

MarketWatch (press release)

NPSV are transportable cryogenic vessels that allow Linde to deliver high volume liquid nitrogen directly to production locations, where the nitrogen is used to displace water and enhance production in hydraulic fracturing and other oilfield operations.
